

# Do you live in 61101, 61102, 61103 or 61104?

---

*If so, your child may be sick,  
and you may not even  
know about it.*

Children living in these ZIP codes are at  
**High Risk for Lead Poisoning**  
and often have no outward symptoms.

Lead poisoning may cause learning disabilities, decreased intelligence, behavioral problems and other medical issues.

A simple blood test is all that is  
needed to determine if your  
child is affected or not.

Ask your family physician  
or call the Winnebago  
County Health  
Department,  
**(815) 720-4384**,  
to schedule an  
appointment for  
a reduced cost.
